

END OF PARLIAMENT

**Prorogued Until Nov. 2—King's
Speech was of but Little
General Interest.**

London, Aug. 14.—Parliament was pro-
rogued to day until Nov. 2. The king's
speech was of little general or interna-
tional interest. It alluded to cordiality
of the king's reception in Portugal, Italy,
and France, and expressed satisfaction
at manifestations of good will and cordial
reception on his recent visit to Ireland.
Referring to the Irish land bill the speech
says:

Washington, Aug. 14.—Secretary Root to-morrow will promulgate an order defining the duties of the general staff of the army, which goes into effect Aug. 15. The most important feature is that in relation to the selection and duty of the chief of staff. Quoting from the new law, the secretary says the command of the army rests with the president. In case of emergency he may place the whole army under a single commander subordinate to him, but under ordinary conditions the administration and control of the army is affected without any second in command. The president's command is exercised through the secretary of war and chief of staff. The secretary of war directly represents the president and is bound to act in conformity to the president's orders. The chief of staff reports to the secretary of war, acts as his military adviser, receives from him directions and orders given in behalf of the president and gives effect thereto. But the president may at any time call upon the chief of staff to give information or advice or receive instructions directly. The chief of staff is

detained by the president from officers of the army at large and not below the grade of brigadier general. His relations with the president are of absolute confidence and personal accord and sympathy and his detail ceases with the expiration of the president's term and it is made the duty of the chief of staff to apply for release when he cannot sustain toward the president and secretary of war the above described relations. The chief of staff is charged with the duty of supervising under direction of the secretary of war all troops of the line and every department and branch of the service. The remainder of the order relates to duties of other members of the general staff and gives provisions of the law relating to the general staff.

Young will issue two general orders to-morrow as chief of staff. Young announces assignment of officers of the general staff as follows:

Assistant or chief of staff: Maj. Gen. Henry C. Corbin; adjutant general, Brig. Gen. William H. Caster.

Chief of artillery: Brig. Gen. Wallace F. Randolph.

War college board: Brig. Gen. Tasker H. Bliss, president; Col. Alexander Maykin, secretary; corps of engineers, general staff and Maj. William D. Beach, 18th cavalry.

Col. William P. Hall, assistant adjutant general, is designated acting adjutant general of the assembly.

Hereafter all army orders will be issued direct from the war department.

"This reform, by removing ancient causes of social dissensions, will, I heartily trust, conduce to the common benefit of all my Irish subjects."

There probably never has been a pro rogation of parliament which for the future of the government's policy is so uncertain as is the case on this occasion. Many believe believe there will be dissolution in the autumn, though best information does not support this belief.

Balfour's speech at Sheffield at the end of September is awaited with keenest interest, as it will contain certain pronouncement of a policy which will possibly force either the duke of Devonshire to pronounced free trader, or Secretary Chamberlain to resign.

GOOD OFFICES NOT NEEDED.
London, Aug. 14.—At none of the embassies is anything known regarding the statement made in last night's dispatches from Yokohama that Prince Ching has secured Russia's consent to use President's good offices in connection with the Manchurian incident. Well informed Russians here do not understand there is any question pending with China in which the good offices of Roosevelt are needed.

MANY DEAD IN JAMAICA.
Washington, Aug. 14.—The state department received the following cablegram from Kingston, Jamaica:

Port Antonio greatly damaged by the hurricane. Many dead and seriously injured are constantly reported to the consulate."

Oyster Bay, Aug. 14.—Financial legislation and other proposed work of the extraordinary session of congress were discussed to day by the president with Secretaries Shaw and Hitchcock, Senator Callom and others. It was announced no definite conclusions had been reached.

THE CANAL TREATY.
Bogota, Colombia, Aug. 14.—The canal treaty committee has rendered a report accepting the Hay-Herrian treaty with nine substantial amendments. The senate has decided to discuss the treaty in public sessions in spite of opposition of the minister of foreign affairs.

INDORSE HEARST FOR PRESIDENT
Denver, Aug. 14.—The national building trades council convention to day after spirited debate endorsed Congressman-elect W. R. Hearst, of New York, for president of the United States by a vote of 28 to 19.

MURDERER BATSON HANGED.
New Orleans, Aug. 14.—A. E. Batson was hanged at Lake Charles to day for the murder of six members of the Earl family in February, 1902, near Welsh. Batson always denied the crime.

CENTRAL ILLINOIS
GOLF PLAYERS

Will Hold Fourth Annual Meet in Springfield — Program of the Events.

The official call for the fourth annual meeting of the Illinois Golf association, which will be held in Springfield, Sept. 2 to 5, has been issued by J. E. T. Rutter, president of the association. From all indications the meeting will be the greatest golf event in the history of the game in Illinois, outside of Chicago. There will be representatives from the clubs of Jacksonville, Bloomington, Champaign, Quincy, Peoria, Springfield, Decatur and Galesburg.

Alexander Allen is chairman of the tournament committee; Walter McC. Allen is chairman of the house committee, and Arthur Hay is chairman of the greens committee.

The association has appointed a reception committee from the various clubs as follows: President and ex-officio chairman, J. E. T. Rutter, Springfield; Harry D. Spencer, Bloomington; George E. Champaign; Charles G. Powers, Decatur; J. G. Beadle, Galesburg; F. L. Leford, Jacksonville; Fred H. Smith, Peoria; Frank H. Whitney, Quincy; J. F. Caldwell, Springfield.

The captains of the several teams will constitute a board of reference for all questions arising during the meet. The decision of this board, by a majority vote will be final. The rules of the United States Golf association will govern the contests.

The circular issued by President Rutter, describing the various events, is as follows:

Team cup—An annual thirty-six hole bogey contest. Teams limited to six players from each club. Cup furnished by association; held by winning club; three winnings confers ownership.

Won at Decatur, 1901, by Quincy.

Won at Quincy, 1902, by Quincy.

Championship cup—Individual match play, eighteen holes. Cup furnished by association; held by winner until next meet; two individual winnings confers ownership. The winner becomes the association champion and will be awarded a gold medal. The runner-up will be awarded a silver medal. Both medals presented by President J. E. T. Rutter.

Nil Desperandum cup—Individual match play, eighteen holes, open to losers in first eighteen holes of championship cup. Cup furnished by association; becomes property of winner.

Na Muckle Doon cup—Individual match play, eighteen holes, open to losers in second eighteen holes of championship cup. Cup furnished by association; becomes property of winner.

Team cup—First eighteen holes, Wednesday, 9 a. m.; second eighteen holes, Wednesday, 2 p. m.

Cup, presented by J. Bunn Henkle, Springfield.

Putting contest—Friday, 5 p. m. Five balls on first green. Prize—Cup, presented by A. Campbell Brown, Springfield.

Best bogey score in team match Wednesday. Prize—Cup, presented by association; property of winner.

TO LEAVE CENTRAL ILLINOIS.

Central Illinois is about to lose the queer people known as the Amish. While all may not go, a considerable number have decided to depart. Agents of the sect have been engaged for several months in buying land in Western Illinois a few miles south of Keokuk, and is what is known as the Lima Lake district. Already options have been secured upon 30,000 acres and fully \$300,000 paid to hold them. The land can be bought in this district all the way from \$25 to \$45 an acre. The lands, where they now are, have increased in the past five years to \$100 and \$150 an acre, most of them being now located in McLean county. The Amish sect is a branch of the Menonites and is exceedingly prosperous. It is communistic in many ways, and is governed more by the laws of the church than those of the state. The members are not allowed to participate in wars, and their home furnishings must be severely plain, no carpets being allowed on the floors, no pictures, nor fancy wall paper on the walls. Wives and husbands must be selected by the church, and after marriage the couple must live apart one week before being permitted to remain together. A husband is not permitted to fondle or kiss his wife and children in public. Bishops, elders and preachers are chosen by lot and must serve without pay.

BAREFOOT GIRL IN JAIL

Neighbors Say Bertha Hollingsworth Did Not Intend to Commit Theft.

Jerseyville, Aug. 14.—The arrest and imprisonment of the 19 year old Bertha Hollingsworth of Fieldon for the theft of a pair of low cut patent leather shoes, which she admitted for their beauty and took while she was barefooted has caused more feeling than that village has known for months.

The girl is the oldest of eleven children. Her father has become crippled by illness and has not been able to work for three months. The family is poverty stricken and has been supported by the charity of neighbors.

Tuesday afternoon Bertha Hollingsworth poorly clad, entered the general store of Frank Bowden, saw the shoes which Rowden had bought for his wife in St. Louis, lying on the counter and took them.

Wednesday afternoon she was arrested at her home and the shoes were recovered. She had not worn them. She was driven thirteen miles to Jerseyville, taken before Justice of the Peace John H. Brown, bound over to the grand jury for larceny, and sent to jail to await the convening of court in September. It was supposed that at that time she was sent to the house of correction.

When Fieldon people heard of the girl's plight they were aroused. The ten other children of the Hollingsworth family range in age from 16 years down to one month. Bertha was the chief help of her hard-working mother.

Thursday morning Jed Reddish, one of the wealthiest farmers of the vicinity, hitched up his horse, called the girl's father, drove hurriedly for thirteen miles to Jerseyville, gave bail for the girl and took her back to the family.

Bertha's sole explanation of the theft of the shoes is that she thought they were pretty. She had never before taken anything that did not belong to her.

MILITARY MARVELS.

The Aurora Zouaves' Remarkable Career at Home and Abroad.

It is claimed for the Aurora Zouaves, who will be seen here in connection with the great Adam Forepaugh and Sells Brothers United Shows, that they are the best-drilled soldiers in the world. The company was organized at Aurora, Ill., about fifteen years ago, and after a couple of years hard drilling and study they entered the interstate military contests and never knew what it was to be defeated. Two years ago they went to Europe where they were viewed by royalty and nobility, and by a large number of military authorities, who universally pronounced the Zouaves the most remarkable organization of the kind that they had ever seen. They were offered all sorts of inducements to remain many months beyond the limit of their stay which had been arranged when they left home. Business and family affairs compelled their return, however, and then a combination of influences, patriotic feeling and pecuniary compensation induced them to show themselves to their fellow-citizens of this country. To do this they will appear at every afternoon and evening performance of the Adam Forepaugh and Sells Brothers Enormous Shows United.

Diavolo will also positively appear at each performance in his looping the loop on a bicycle sensation, as will also Minton, the unicycle Marvel, twenty-four champion equestrians, forty clever clowns and dozens of other attractions. The date of the great shows here is Friday, Sept. 4.

MANY LEGAL POINTS

Involved in Formation of School District in East Part of County.

Another effort will be made to revive the new school district which was formed something over a year ago in the Berlin neighborhood, the organization of which was recently declared to be illegal. The friends of the district will resort to mandamus proceedings to this end. The district lies partly within this county and partly within Sangamon. To make the new territory into a school district required the consent of a certain per cent of the residents. A petition signed by the requisite number was presented to the board of commissioners, composed of Judge Murray, of the Sangamon county court, Supt. Frank Johnson, of this county, and Charles Van Dorn, superintendent of schools of Sangamon county. Superintendent Johnson was not present, but presented an adverse opinion in writing. Judge Murray and Superintendent Van Dorn favored the plan and the district was formed and the directors elected. After the directors began to serve the residents of the district who were opposed to the new arrangement, commenced quo warranto proceedings against the directors, calling upon them to show by what authority they were performing the duties of school directors. Judge Creighton held that the district was illegally formed, because the superintendent of schools from this county was not present. He said that the law was mandatory on that point.

The people who favor the new district now assert that as the petition was legal up to the time it was sent to the commissioners to be passed upon, that it will not be necessary for them to get up a new petition. They took the matter before Superintendents Johnson and Van Dorn Thursday, but these two gentlemen decided that they had no jurisdiction in the matter.

It was then announced by the attorneys representing the friends of the new district that mandamus proceedings will be commenced. It is supposed to make a test case of the affair.

When Judge Creighton passed on the case several months ago the court ordered a writ of ouster. Since that time the directors have not performed the duties for which they were elected.

GERMANY'S DEBT.

Berlin, Aug. 14.—It is announced that the annual debt of the German empire at the end of the current fiscal year will be \$150,000,000, which is a considerable increase over that of 1902. During the past twenty years the debt has steadily increased.

The imperial national debt, however, is only a small portion of Germany's real indebtedness. The aggregate national debts of Prussia, Bavaria, Saxony and other states within the federal empire amount to the further sum of \$600,000,000.

The financial condition of Germany compares unfavorably with any country with the exception of France and regardless of this fact, the next estimates will provide for a large expenditure for both the army and the navy.

DRANK BAY RUM.

Guthrie, Okla., Aug. 14.—As a result of drinking bay rum as a substitute for whisky, two men are dead at Sulphur Springs, I. T., and another is missing from his home and two others are in a critical condition. They wanted to drink and being unable to get whisky in the Territory, they tried bay rum. Dozens of so-called substitutes for whisky have been concocted for the Indian trade in the Territory, but a recent order from the government stopped the sale of these concoctions also, and bay rum was about the only thing left.

RELEASED ON BOND.

George G. Huffaker, Jr., who has been in jail in Springfield on charge of forgery, was released from jail Thursday. His father, who until this time had refused to come to the aid of the boy, furnished the bond.

STREET CARNIVAL NOTES.

The committee managing the street fair has arranged for 3,000 electric lights to be used about the square during carnival week. The square will certainly be brilliantly illuminated.

The Wabash has granted a fare of one and a third from Springfield, Carthage, Pittsfield, Mt. Sterling and intermediate points. One day during the carnival they will give a one fare rate.

Merchants are urged to decorate freely with corn ears and corn stalks. The corn should be cut now in order to obtain the best results.

The bubonic plague, which has now been in India more than six years, shows no sign of abating. There have been over 25,000 deaths a week from the plague for some time past. One week the number reached 29,647. It is calculated that since 1890 over 2,000,000 people have died in India from the plague.

The irrigation works recommended by the geological survey give interest to the report on the irrigation works of India. The net revenue to the government was 7.30 per cent on an outlay of \$110,000,000. The value of the crops raised on the irrigated area during the year is estimated at \$18,000,000—a sum in excess of the capital outlay.

Speaking of freight rates, Dr. Le Monnier, privy counselor of Germany, said in a recent lecture that the average freight charge in the United States was exactly one-half that of the German state railroads. The charge for wheat from Chicago to New York is but one-fourth as much as that from Bombay to the Rhine, a distance half as great.

A leper was exhibited at a lecture to an audience of Chicago university students the other day. Dr. James Newlin Hyde, the lecturer, said that leprosy is not dangerously contagious, that it is curable and that it is gradually disappearing from all countries. He does not believe that any drug capable of curing leprosy will ever be discovered. Cleanliness and good food, he asserted, are the surest and best remedies.

The Canadian government has issued a census bulletin which gives statistics as to agriculture in Alberta, Assiniboia and Saskatchewan, which, united, compose the Northwest Territories. The total area of these territories is 190,903,117 acres, and only 6,509,004 are occupied as farms. Of this area 75.90 per cent is unimproved. Field crops, exclusive of hay, occupy 53 per cent of the improved land, but only a fair beginning has been made with fruit trees and vegetables. The area of land in wheat, oats, barley, rye, corn, peas, potatoes and other field crops in 1901 was 104,773 acres. The increase at the end of the last decade was 604,073 acres, or 5.73 per cent. The production of home-made butter is nearly twice as much as ten years ago, and in the interval ten factories have been put into operation.

Strengthened Aluminum.

Alloys of aluminum and magnesium are superior to pure aluminum in strength, but less malleable and ductile. A more satisfactory metal is obtained by the Dutch Aluminum company. A mixture of aluminum with 2 to 10 per cent of magnesium gives a metal that can hardly be distinguished from aluminum, and the qualities of this alloy are modified by passing several times through a rolling mill while heated to about 600 degrees F. The treated alloy can be easily cut and filed, while it has much of the ductility and malleability of pure aluminum.

New Railroad Mileage.

The figures of new railroad mileage completed during the first half of 1903 show that the greatest extension was in Oklahoma, 240 miles, next Texas with 205 miles and third the Indian Territory with 108 miles. All of the older states were behind these, even New York reporting only two miles and a half of new road. The figures indicate that the principal railway extension during the next few years will probably be in the southwestern and northwestern states.

The Boston Traffic.

A man in Maine recently shipped to England 200 barrels of "rat-trail," the well known rat poison. Over there they call the rat-trail "rat-trail" and the filling the rats with it is called "rat-trail." The rat-trail is a very valuable commercial value. Even a weed, it is said, is not without some use to its own country.

KINGS ARE COMMON.

In the Creek Country Along There Are Twenty-Kings.

Kings are very common in the Indian Territory. In fact, they are so common that no attention is paid to them, and their movements excite no comment whatever. In the Creek country alone there are twenty-five real live kings. Nero Drew is a fair sample of them. Each one has a kingdom to look after, and it keeps him busy doing it.

The title does not descend from father to son, as it does in the effete European monarchies. The Indians elect their own kings. The tenure of office is two years. However, whenever an Indian is chosen king and serves his people well he is usually re-elected without opposition. Some of the old kings in the Creek Nation have been at the head of their kingdoms for forty years or more. Nero Drew has been a king for thirty-six years.

The Creek Nation is divided into twenty-five towns, which is about the same as a township in the states. Each town has a king, whose duty it is to look after the Indians of his town. He has no power to spend their money or to command them to do anything. His powers are somewhat paternal. He looks after the sick and sees that they have medical attention; he cares for the poor and decrepit. When any of his subjects get into trouble he gives them fatherly advice and frequently appeals to the federal authorities to show them mercy.

He advises with his subjects on all matters pertaining to their interests. In truth, he is their worldly adviser; sometimes he is their spiritual adviser also, for occasionally the Indians elect a preacher as king.

Indian kings are not very well compensated. They get no salary. It is a labor of love with them. The only possible show they have of getting any money out of the office is through booting at elections. In this respect the Indians are not behind the times. They bootle the same as other people. Elections sometimes come high to the candidates. Town kings are usually quite indulgent among the people of their kingdom, and they command a fairly good price for their influence at elections. Most of them are full blood Indians. Some, however, are mixed bloods.

—Kansas City Journal.

The Road Runner at Work.

George Watts, Sam Kline, Peter Butts and Charley Conans of Blaine were out prospecting on the Tombstone road in the neighborhood of the Old Sandy Bob ranch, and while in the course of hunting for monuments their attention was attracted to the actions of a road runner that seemed to be very much excited, jumping up and down in the air. When drawing nearer they discovered a large rattler coiled up. The bird would drop quickly upon the rattler and prick him with a piece of cactus in its feet and then drop the same near the rattler. This was kept up over an hour until the bird completed a circle of cactus around the snake. It then systematically pecked the snake on the head until the rattler was dead. The gentlemen brought back eight rattles that they cut from the defunct snake.—Tombstone Epitaph.

Air and Sunshine.

Go out into the country if you can. Make the acquaintance of birds and flowers and running brooks. Take a lunch along with you, and do not drink too much of the lager which the road house has awaiting your order. You will be surprised to find how the years drop away and how young you feel by nightfall and what a whopping sleep you will have when you get home. If you cannot go into the country go to the park or to the river side. Get on the sunny side of the street. It won't hurt you. And fill your lungs with great drafts of sun kissed air. There is healing in every inhalation, and if you breathe full and deep it will cleanse you like a bath.—New York News.

Canadian Farmers Prosperous.

The Canadian government has issued a census bulletin which gives statistics as to agriculture in Alberta, Assiniboia and Saskatchewan, which, united, compose the Northwest Territories. The total area of these territories is 190,903,117 acres, and only 6,509,004 are occupied as farms. Of this area 75.90 per cent is unimproved. Cotton an Unsuccessful Crop.

Cotton is becoming our most uncertain crop, having more fungous diseases and insect enemies than any other staple. If it reaches the condition that expensive methods of protection are necessary to the production of cotton the fact will be another argument in favor of smaller areas of cotton, better cultivated and heavier yields per acre. Why should 100 acres be struggled with to make less than forty bales when the same amount can be made on twenty-five acres? Some of our best farmers make two bales per acre, and sometimes more. Then why not study their methods and adopt them? When it is necessary to spray 100 acres of cotton to prevent its destruction by webworms, as all growers do, it is easy enough to see where the profits go. Dallas Farm and Ranch.

PROTECTION FOR FARMERS

Protection in Rural Districts. Rural police protection is becoming a serious question in many country districts rendered accessible to the hoodlum element of the cities by trolley lines or steam railways. Nothing portable is safe from these marauders, who are disorderly as well as thievish. One New Jersey community, suffering the depredations of lawless foreigners is reported to have secured peace and quiet through the engagement of a cowboy special constable. His duty is to patrol the country roads, on horseback, keeping a supervision over suspicious characters, and as his capability inspires respect he has an excellent influence. We have often thought that a body of men like the Canadian mounted police would be of great value in our isolated rural communities. The character of our population is changing, and we are so often confronted not merely by petty thieving but by horrifying crimes in country districts that it is evident such protection is needed more year by year.—Rural New Yorker.

A Barrel Scarecrow.

The only sure method we find here to scare crows from cornfields is cheap and easily made, and so crows will light in the field where it is used, provided they have not begun to pull the corn. Take a common flour barrel, remove both heads, nail all the hoops with wire shingle nails to hold the barrel together, bore a half inch hole in the middle of the barrel for a wide stave, take a half inch rope (not a chain) four feet long, tie a knot in one end and pass it up through the hole. Then tie the other end to a strong pole set in the ground at an angle so the barrel will swing and not hit the pole. The barrel will always be in motion, as the rope will twist each way, and no crows will dare come near it. Two barrels will be enough for an acre or more. I have saved my field of corn many times with one barrel when all other methods failed.—New England Homestead.

A Remarkable Barn.

Tan Crawley, a farmer of the Coral Hill country, had a novel experience. A few years ago he built a small barn and in its construction used green willow posts at the corners and along the sides. For some time nothing unusual was noticed, but after a year it was observed that where he had laid the floor near the ground it was three feet above the soil. He then discovered that the willow posts instead of being dead were alive and had taken root and were growing and that in their upward movement they had raised the barn, says the Glasgow Republican.

Cooking Food For Pigs.

Many farmers believe in cooking food for pigs, some even going so far as to cook all their food. The results of numerous experiments show that as a rule steaming or cooking food, especially coarse food, for cattle adds nothing to its value. Potatoes, however, cannot be fed to swine in any quantity without cooking, and often grains which are injured or damaged in some way should first be cooked before feeding. Warm feed must not be confused with cooking it. An occasional feed of cooked food will be relished by way of variety. Warming or soaking the food may make it more comfortable or agreeable to the palate and perhaps make it more easily digestible. In this way warming the feed may be advantageous, for increased comfort will aid in economizing the food or increasing the gains.

SPORTING WORLD

New Millionaire Farming. A newset of colors will soon be seen on the thoroughbred courses. They will represent the Oakland stable, the "mom de course" of Alfred G. Vanderbilt of New York. The millionaire has grown interested in the racing game.

ALFRED G. VANDERBILT.

and intends to fight for some of the race track glory with a good class of thoroughbreds.

Early in the year Mr. Vanderbilt purchased a large number of horses for racing purposes, and, although little of them is well known on the turf, it is understood several are very fast, and with proper handling Mr. Vanderbilt expects Oakland stable will be heard from.

Chicago's Trotting Revival.

Chicago, after a rest of four years, has at last had a meeting at which the trotters and pacers were the attraction, and the promoters are now more confident than ever that there are enough people in the great western city to support a big meeting over a mile track. It would seem as though there were enough members of the Gentlemen's Driving club to guarantee a meeting at Washington park at which the stars of the harness world would appear. A meeting of sufficient caliber to attract the greatest horses on the turf and conducted on the "Memphis plan" should attract large crowds every day.

Kenney and Anzella, 2:05 3/4.

If Ben Kenney's record in his opinion, another trotting star of the first magnitude may be seen this season. He has formed a very favorable opinion of Anzella, 2:05 3/4, and thinks she can materially reduce her record.

Kenney is a clever man with a horse, and the opinion of the man who brought out Nancy Hanks, 2:04, is entitled to respectful consideration. While Kenney had the ex-queen of the turf in his care she lost but one heat. Anzella, up to last May was the stable mate of Lou Dillon.

"No Baseball War."

According to Ben Johnson, the National league has not got any money to carry on a war with his organization. He stamps the stories of a renewed fight as absurd and says that even though the old league had the money it would hardly care for a fight with his league.

Johnson Instructed President Hickey of the American association to prevent Hoffman, who jumped from the Athletics, from playing with Toledo.

Choyneki Changed His Mind. Old Joe Choyneki, who, when knocked out by Nick Burley at Dawson City recently, declared he was through with boxing for all time, has changed his mind and will soon fight Burley again. The Dawson goal evidently tempted Joe.

Chadwick Yale Football Coach.

Manager Miller of the Yale football association, who has been perfecting preliminary plans for the opening of the football season at Yale, says that George Chadwick, captain of last year's eleven, will probably be the head coach next fall.

Geers is Confident.

Ed Geers is quoted as saying that he thinks that Prince of Orange, 2:07 1/2, will be able to beat both Lord Derby, 2:05 1/2, and Major Delmar, 2:05 1/2, before the season is half over.

Daphne Dallas, 2:05 1/2.

Daphne Dallas, 2:05 1/2, that made such a good showing down the grand circuit last year for Ben Kenney, is now setting a hot pace for the horses on the Brooklyn speedway.

SO SOOTHING

Its Influence Has Been Felt by so Many Jacksonville Readers.

The soothing influence of relief After suffering from itching piles, From eczema or any itches of the skin

Makes one feel grateful to the remedy. Doan's Ointment has soothed hundreds. Here's what one Jacksonville citizen says:

Anthony Ward, of 103 North Main street, says: "For fifteen years I was troubled with a severe irritation on my body and nothing I employed brought good results. I procured Doan's Ointment at Dr. H. Lee Hatch's drug store and used it. The effect was prompt and in a short time the trouble was removed. I had also suffered from eczema on my forehead and although I treated for it with physicians they could do me no good. A few applications of Doan's Ointment entirely removed it. This reliable preparation is a true specific for skin diseases."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

READ THIS.

Jacksville, Ill., Sept. 25, 1902.—Nearly three years ago, with a second attack of serious illness, I was surprised to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's Specific for Kidney and Bladder Troubles, known as HALL'S WONDER. Less than half of the bottle effected a complete and permanent cure. Consequently I believe it to be a medicine of very great value.

L. B. Kent, Evangelist.

A PHYSICIAN HEALED.

Dr. George Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without result until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." For sale by J. A. Obermeyer.

PAPAL ELECTION

Only About \$1,000 Is Expended—Cardinals Pay Own Way.

New York Sun: The election of a pope of Rome cost less than is frequently expended in the placing in the United States congress of a rural representative. It is said that the conclave that elected Leo III cost less than \$1,000, all told, not including the coronation ceremony. Surrounded with pomp and ceremony, the conclave is nevertheless marked for its simplicity.

Each cardinal defrays his own expenses and those of his secretaries and servants. Every cardinal in the college is pastor of some church in the city of Rome, even Leo III, as in the case of Cardinal Gibbons. It is but a titular office. However, every cardinal is expected to support and direct the church from which he takes his title. In this manner every cardinal has a residence in Rome and while there usually resides at its rectory. Cardinal Gibbons, who is pastor of St. Mary's over the Tiber, instead of going to his rectory while in Rome will reside at the American college.

The only expense attending the election of a pontiff which is met by the Vatican is the entertainment afforded the cardinals during the days of cloister when the ballots are being taken. As that time is considered in the light of a solemn retreat, even food is of the simplest, and practically no wine issued. Thus it is estimated that less than \$300 a day is expended in the entertainment of the entire college during the days of election.

At the rich robes worn by the cardinals at the coronation and other services attendant upon this event are provided individually and the newly elected pontiff also defrays all expenses of his elaborate and costly wardrobe.

Perhaps the item of greatest expense in the making of a new pope is the decoration of St. Peter's for the coronation ceremony. For this boxes are built in the great cathedral for the foreign ambassadors of Rome and the most distinguished of the visiting prelates. These are draped with silk ribbons of the papal colors and bear the crests of those who will occupy them.

CHILD LABOR LAW

Gives New Duties to Superintendents of Schools—Measure Applicants For Certificates.

Two or three boys were waiting in the office of Superintendent Johnson, of the county schools, yesterday, when asked about their mission there Mr. Johnson said: "Why to be measured of course." Mr. Johnson did not specify what the boys were to be measured for, going on the supposition that people are familiar with the workings of the new child labor law. The age and school certificates under this law are made by the county or city superintendents of schools. The data in the certificate includes the facts as to height, weight, complexion and color of eyes and hair. County and city superintendents are required to give certificates to all minors of either sex who desire to obtain employment in stores, offices, laundries, hotels, manufacturing establishments, factories, or workshops, bowling alleys, theatres, concert halls or places of amusement or as messengers or drivers therefor. The superintendent receives from the principal of the school which the applicant has attended, a certificate showing he or she is 14 years of age and this certificate being sworn to by the parent or guardian, he issues the age and school certificate. In case a child has not attended a public school a certificate may be issued by the principal of a parochial school. Evidence of age may also be produced from a certificate of birth or baptism or from the register kept by a town or city clerk. In all cases it must be shown that the applicant can read at sight or write legibly simple sentences in some language.

Letters of instruction have been sent out by Chief Factory Inspector Edgar P. Davis to all school superintendents and employers of labor explaining the provisions of the new law. It provides among other things that no child under 14 years of age shall be employed unless the employer shall place on file an age and school certificate properly sworn to by the parents of the child, that no affidavits of age can be issued by notaries public, that employers shall keep a register of all children employed, that children shall not be employed more than eight hours in any one day or forty-eight hours in any one week; that children shall not be employed at night work; that all children employed as wage-workers must either be able to read and write or must be attending night school; that children shall not be employed at work that is dangerous or unhealthy nor where their morals are likely to be depraved. This last requirement includes all places of amusement where liquor is sold.

Superintendent Johnson says that there are a good many applicants for age and school certificates.

PRIZE FIGHT QUARREL

Prize fight on Chien, Wis. Aug. 14.—S. D. George was shot at McGregor by Mayor W. Walters during a quarrel over the Corbett-Jeffries fight. The victim probably will not live till daylight.

ON THE GOLF LINKS

A. G. Burr Won the Cup in the Novice Contest—Marcy Osborne Breaks Record of the Links.

In the contest for novices on the golf links of the Country club Friday afternoon A. G. Burr was the winner, with the very creditable score of 50.

Last summer about twenty-five members of the club who had never played a game before were participants in a nine-hole novice match. Mayor Davis was the winner. Only those who played last year were eligible to the contest yesterday and as twelve or more of them were out of the city there were but seven entries. They had a good contest, however, and there was no lack of interest. The prize was a silver loving cup, donated by F. L. Ledford, and it becomes the property of the winner.

Mayor Davis made an excellent showing; as he finished a close third with 55 strokes, taking eight for the last hole. This was his second appearance on the links this year and his record shows that if he played regularly some of the "experts" would have to look well to their laurels. A great deal of interest centered about the contest between O. L. Hill and Edward Flanagan. Mr. Hill has been too busy this summer gathering in business for "The Only Way" to devote much energy to golf and yesterday he played for the first time this season. His records tell the story and no doubt he surprised himself, and certainly he surprised Mr. Flanagan.

The scores in the novice contest were:
A. G. Burr 50
C. C. Phelps 54
John R. Davis 55
T. B. Orear 56
Oscar L. Hill 58
Edward Flanagan 65
E. S. VanAnglen 65

FIRST HANDICAP.
The following contested in the first handicap contest of nine holes. It was won by H. K. Snyder, with a score of 54, handicap 17. Ayers, Scurlock and Sanders did nice playing in this round. The scores:

H. K. Snyder	54	17	37
W. S. Ayers	51	3	38
George Scurlock	42	4	38
Charles Sanders	43	5	38
C. G. Rutledge	48	7	41
C. C. Phelps	54	11	43
Marcy Osborne	44	0	44
Joseph Hubble	51	7	44
Dr. George Dinsmore	55	11	44
W. E. Kullen	56	11	45
G. M. Luttrell	49	3	46
Harry Christy	57	11	46
F. L. Ledford	55	1	54

The prize in the above was a nobby golf hat, donated by L. Seeberger. Ayers, Scurlock and Sanders having tied with 38 each will play another nine holes to day and the winner will receive a prize.

SECOND HANDICAP.
The second handicap contest was won by Marcy Osborne from scratch. Osborne broke the record of the course, playing in 37 strokes. His score follows: 5-4-4-5-4-4-4-4-3-7. The prize in this contest was a handsome silk tie given by A. Wehl. The scores:

Osborne	37	0	37
Orear	56	18	38
Phelps	50	11	39
Dinsmore	51	11	40
Burr	50	9	41
Luttrell	45	3	42
Scurlock	47	4	43
Hubble	50	7	43
Baldwin	53	10	43
Killen	54	11	43
Ayers	47	3	44
Christy	56	11	45
Danskin	57	12	45
Rutledge	53	7	46

NOTES.
Most of the golfers played their usual game, but several of them were very badly off.

The Quincy team will not be here to day as expected.

The regular weekly ladies' contest will take place this afternoon.

The play for the Kirby-Capps cup is scheduled for next week and there will be a further announcement later.

DENVER POLICE CHIEF MISSING.
Springfield, Aug. 14.—M. Delaney, chief of the Denver police, who is visiting here, has mysteriously disappeared. Wednesday through a mistake he drove away a wrong rig from a hotel and was arrested for horse stealing. After the mistake was explained he returned to the hotel and soon afterward disappeared. His daughter, who came here with him, is unable to account for the disappearance.

BODY IDENTIFIED.
Los Angeles, Aug. 14.—The body of a man found dead in a room in a hotel was identified as that of Capt. Harry E. Smith, U. S. A., retired.

NOT OVER-WISE.
There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of headlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists.

SUFFERING IN JAMAICA

Conditions in Wind Swept District Distressing—People Homeless and Starving.

Kingston, Jamaica, Aug. 14.—There are heart rendering scenes all over the eastern and northern portions of Jamaica. At Port Antonio thousands of homeless and starving people have sought shelter in the old prison and other buildings which survived the hurricane. Others are covering in the lee of ruined walls and dismantled piazzas. Railroad sheds and waiting rooms are filled with women and children. Their only food now is unripe bananas and this will be exhausted in ten days.

Similar conditions prevail at Annotata bay, Buff bay, Orange bay, Port Maria, Manchonoal, Morant bay, Bowden and other seaports.

In the interior distress is equally acute. Scarcely a peasant's home, which are built of substantial stone, but has been unroofed with few exceptions. Misery of peasant families is indescribable. Their homes and belongings have been literally blown away and they are constricting rudely shelters from fallen trees, palm boughs and banana leaves.

Local hospitals in the wind swept districts are crowded with injured and the death list is increasing. It is now estimated the loss on the island will reach \$15,000,000.

SHOT BY HIS FRIEND

William Scott, a Springfield Lad, Met Sudden Death Friday Morning.

Springfield, Aug. 14.—Wm. Scott was shot and almost instantly killed by a shot fired from a revolver in the hands of George Cleveland Puff, aged 18 years, a little after 11 o'clock this morning. Puff was arrested and placed in jail immediately after the shooting. He says the affair was an accident. The shooting occurred at No. 2038 East Clay street at the residence of Puff's parents, Mr. and Mrs. G. W. Puff. Young Puff, who is in great distress over the affair says that he and Scott were on the porch and that they were throwing a hatchet at a pest. Puff had thrown the hatchet and stuck it in the post and when Scott attempted to duplicate the feat the hatchet went past the post and fell out in the yard. The two young men ran after the hatchet and engaged in a friendly scuffle for its possession. Scott succeeded in getting it and as he turned to go back to the porch, Puff snapped a revolver which he was holding in his hand and the weapon was discharged, the ball entering Scott's cheek and ranging up into the brain. Scott fell to the ground and died within a few minutes.
